Phylogenetic tree of the genus *Pteromalus*, showing relationships between various species. The tree is rooted on the left and branches out to the right. Species names are listed along the branches, with some highlighted in red. The tree is divided into several major clades, each containing numerous species. The red highlights are distributed across the tree, indicating specific groups of interest.

Phylogenetic tree of the genus *Pterodroma*, showing relationships between various species. The tree is rooted on the left and branches out to the right. Species names are listed at the tips of the branches, with some names highlighted in red. The tree shows a complex branching pattern with many closely related species and some more distinct lineages.
